

GOLDBUG LOGIC.

As the National Bimetallic of Silver party is causing uneasiness in the camp of the eastern goldbugs the gold press of Nevada is trying, as it has been since its organization, to disparage the Silver party in this State. Because a Jack-Mormon from Lincoln county, with a following composed of seven or eight Silver Republicans and seven or eight Silver men advocated the passage of several obnoxious bills in the Assembly, the great cause of free coinage, and great struggle between the people and the gold trust must be abandoned. What if every member of the Legislature had proved recreant and untrue to the people? Would that disprove the justice of the cause for which the people of every Western and Southern State are now preparing to fight? Should we ignominiously surrender to the Gold Trust because there were a few traitors in our ranks? What did the recreant members of the Silver party do in the Legislature that Republicans did not aid them in doing? Look at the roll call on the bill to increase the compensation of members of the Legislature in the face of the Constitutional inhibition. It was headed by the Brocklisses, the Briggses, Conboises and the Crislers, all Republicans. What better, judging by the votes of the Republican members, would it have been if all the members affiliated with that party? A larger number proportionately of Republicans than of Silver men voted for every rascally bill that came before the Assembly, but forsooth, because some Silver men were in the combine with Republicans, Nevada must abandon the cause of free coinage and meekly submit to the decrees of the Wall Street gang? No, the people of Nevada are made of sterner stuff. They have been deceived, it is true, by Republicans and by Democrats, who used words to conceal their thoughts, and by a few Silver men who with Republicans composed of the "Mercenary Combination" in the Legislature, but they will not abandon a just cause because a few members of the Legislature proved unworthy of the confidence reposed in them by their constituents. — Reno Journal.

THE MINT SHORTAGE

The shortage in the Carson Mint amounts to a plain theft. It is too early at present to fix the responsibility, but when it is fixed someone will be wearing stripes in the penitentiary for a term of years.

It is folly to talk of errors in assaying, imperfect book-keeping, etc., etc. The matter is a plain, ordinary piece of stealing, and the amount of such dimensions that it is quite clear that probably more than one or two persons were engaged in the conspiracy.

At different times during the last few years there has been unpleasant rumors concerning the Mint, and the Appeal knows of one case where a workman was discovered with a small amount of bullion in his dinner bucket. The man was merely discharged and he turned over the bullion, but was not prosecuted because he had a family. The principle involved in such a proposition is bad and had the discovery of his theft been followed promptly by prosecution and imprisonment, it is more than likely that the men engaged in the present robbery would have been less likely to run the risk of the penitentiary.

A regular agent of the Government is here and when he completes his investigation the blame will be fixed officially where it belongs. Until he makes his report it is idle to speculate.

Pardon of Fountain.

Yesterday Senator Patchen had the satisfaction of driving out to the States Prison and announcing to Fountain, his client, that he had secured his pardon. The necessary papers having been presented the Warden, from the Board of Pardons, the prisoner was liberated. The scene was quite an affecting one as he bade his comrades good bye and shook hands with everybody around the place. A man always leaves the Prison under these circumstances with kindly words of encouragement from the Warden and hearty wishes of success. He also has \$25 in money and an order for a suit of clothes. All the pay an attorney gets under these circumstances is the feeling of appreciation from the man whose release he has secured and lawyers say that at such a time the appreciation and thankfulness are so lavish that it is better than a fee.

The point made by the Republican papers that the Silver men had a ma-

jority in the last Legislature and could have killed the bill appropriating extra pay for the extra session is a good one, but when the Silver papers raise the similar point that the Republicans did not pass a silver bill, when they had a majority in the lower house of Congress, it is not considered by them, worth arguing about.

Close Shave.

Warrants were in the hands of the officials here last evening for the arrest of one of the Nevada Legislators who it is claimed was absconding into California without settling accounts with his creditors. The action, however, had gone through on a previous train and was thereby not compelled to suffer the indignity of spending a night in our calaboose. — Gazette.
